Nate Berkheimer was hanging out at the UCI race in Boulder City and ended up riding the skate park a little bit and showed everyone that he has a lot more skill off the track than you may think.

10 [www.bmxplusmag.com](http://www.bmxplusmag.com)

The Pro Open turn out was a little weak at the Falls. Six riders signed up, four riders showed up and Nate took the big win for a whopping \$100!

**DIAMONDBACK**

**NAME:** Nitrus  
**WHY IT'S FAST:** For small budget speed, the Nitrus rocks a heat-treated aluminum frame, three-piece cranks, alloy platform pedals and light-weight 36-spoke wheels. Smaller riders will find room to grow with a 20.25-inch top tube.  
**PRICE:** \$230

**NAME:** Nitrus 24  
**WHY IT'S FAST:** For dads and multi-classers, the 24 features a heat-treated aluminum frame, three-piece cranks and lightweight 36-spoke wheels, all wrapped a 21.25-inch top tube and a price you can afford.  
**PRICE:** \$240

**NAME:** Junior  
**WHY IT'S FAST:** This tiny machine is set up with a full heat-treated aluminum frame, full chromoly one-inch forks, aluminum bars and cranks, 1-3/8 inch Sun cassette wheels and a 18.75-inch top tube.  
**PRICE:** \$325

**NAME:** Expert  
**WHY IT'S FAST:** For smaller riders this version of the Reactor features a full heat-treated aluminum frame, full chromoly fork and bar, aluminum three-piece cranks, Sun cassette wheels and a short 19.75-inch top tube.  
**PRICE:** \$325

68 [www.bmxplusmag.com](http://www.bmxplusmag.com)

**NAME:** Reactor Pro  
**WHY IT'S FAST:** This is a top of the line speed machine with a full heat-treated aluminum frame, full chromoly fork and bar, sealed bearing cassette Sun wheels and three-piece cranks. Currently raced by Nate Berkheimer.  
**PRICE:** \$435
